PAINTING

BENEFITS OF STILL LIFE PAINTING PTO12 Bernard Fallon Th, 1-3PM

The direct observation and painting of Still Life in the studio or on the kitchen table is essential for students of all levels. Any form of painting, whether abstract, illusion, portraiture, landscape or *plein air*, have their foundation in the knowledge of Still Life. After all, the exterior world is linked not just how our minds understand it, but how our eyes perceive it, too. Various objects are subject to careful scrutiny, while composition, perspective, color and brushwork are practiced and refined with a series of interactive exercises. Classes are conducted with humor and sincerity with general references to contemporary and historical masters of Still Life. **\$220**

ESSENTIALS OF PAINTING PTO11 Bernard Fallon Fri, 10AM-12PM

Students will follow live online demonstrations of various aspects of painting the real world and respond with their own versions whilst interacting with the instructor. Aspects will include drawing and painting still life to understand and compose shapes, perspective (linear and tonal), color (primary, complementary and harmony), and values (painting a still-life of five white objects). Students will later use photography to further utilize these principles and understand the pitfalls of the camera. All work is done remotely from home and shared with peers in class. **\$220**

EXPERIMENTAL OIL TECHNIQUES PTO507 Francis Mastrangelo Mon, 12-2PM

This class demonstrates a variety of techniques in traditional knife painting with an added approach of applying drafting techniques provided by other instruments. This exposes students to the experience of a “hybrid” approach to drawing and painting as they are applied together. **\$220**
